## 1. Overview:

- In Server Side Application user can set time interval. Now, every time interval this Application will check test number table.
- If any Record founds in that table then Message will Sent to Mobile Number using URL Link.
- At Client Side there are GSM Modem and SMSGateway Which Receive Message from GSM Modem. Now, When any Message Arrives on GSM Modem, SMSGateway Will run Client Side Application.exe, Which will Update Delay Log table at Server Side Using Web Services(This Application Updates Receive time at Server Side).
- If Message is from admin then this application will update Delay log table at server side else if Message is from Client then this application will insert records in clientGWReport table at server side.
- Unsent Application will also run at Client side. While Updating Delay Log table using web Services by Client Side application, if any error occurs or any net connection Problem occurs then that Record will be stored in one text file.

- Now, Unsent Application fetches this text file and Update Delay Log table Using Web Services.
- Using Admin module user can Create and manage User, add and Manage Country, Operator, Route and Test Number for which he/she wants to Send Message. He/She can view Reports for Country, Operator and Route.
- In this module user can see reports of messages sent by him/her using his own gateway and he/she can also see report for different gateway assign by admin.

## 2. Features:

- Using Delay Log Management System Admin can see delay time taken by one message for different countries, routes, operators and mobile numbers.
- Admin can create new users, and can also select multiple routes for different users.
- Admin can see reports: Country wise, Country operator wise, Country route wise, Country operator route wise, Client wise and also Date wise.
- Admin can see duplicate message also.
-

# *User Manual*

## 3.0 User Manual

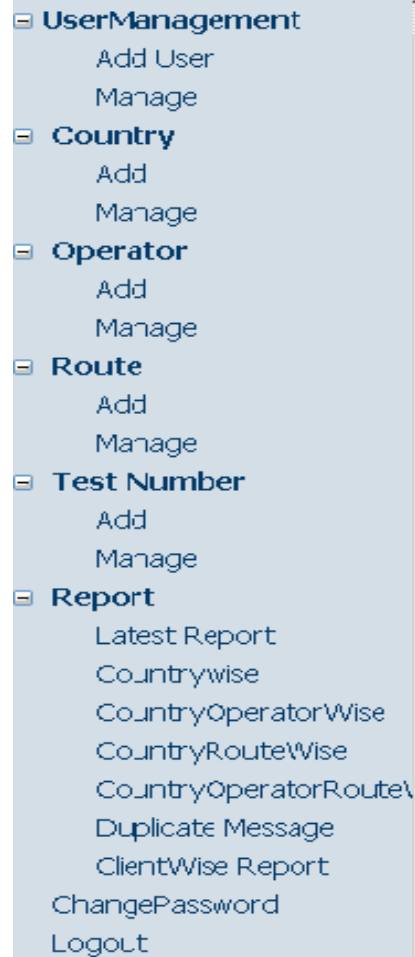

### 3.1 Home Page:

- When user open the site , **Home page** is displayed to the user
- **Home page** is displayed along with the **Menu page**
- Menu page has 6 main Menus
  - 1.**User Management**
  - 2.**Country**
  - 3.**Operator**
  - 4.**Route**
  - 5.**Test Number**
  - 6.**Reports**

### 3.2 Menu Page:

- Menu page contains 6 main Menus each with its sub Menu as a **hyperlink**.
- A click on any of this **hyperlink will** show the following pages.
- First of all, admin should have to add routes through the **Route** and then he can add the details of user, country, operator,

### 3.3 User Management:

#### 3.3.1 Add User:

The screenshot shows a web form titled "UserMangement". It has three main input fields: "User Name" with the value "smith", "Password" with masked characters "\*\*\*\*\*", and "Route" with a dropdown menu. The dropdown menu is open, showing two options: "test gateway\_G09" (which is selected and highlighted in blue) and "infotech\_G67". At the bottom right of the form is a blue "Submit" button. Four yellow callout boxes labeled A, B, C, and D point to the User Name field, Password field, Route dropdown, and Submit button respectively.

- To create new User, select **Add** User from the **User Management** menu.
- It displays add User window.
  - A.** Enter User Name.
  - B.** Enter Password.
  - C.** Select Route from the list.
  - D.** To submit the details of user.
- All details should be Filled by the Admin.
- Admin can select single or multiple routes for that particular user.

### 3.3.2 Manage:

Users Details			
User Name	Modify	Delete	UserGWInfo
smith	<a href="#">Modify</a>	<a href="#">Delete</a>	<a href="#">GWInfo</a>

**A.** points to the [Modify](#) link.  
**B.** points to the [Delete](#) link.  
**C.** points to the [GWInfo](#) link.

- To view details of users select **Manage** menu from **User management**.
- It displays user details window along with all User's details.
  - A.** Click on **Modify** to update the records.
  - B.** Click on **Delete** to delete particular details.
  - C.** To view Gateway information, click on **GWInfo**.

#### 3.3.2.1 Modify:

UserMangement	
User Name	smith
Password	.....
Route	test gateway_G09 infotech_G67 infotech_G67
<input type="button" value="Submit"/>	

- After clicking on **Modify** for particular user, It will show the above add user window.
- When admin wants to update the details of any user, should have to select modify.
- Then change the details & submit.
- All details should be modified by the Admin.

### 3.3.2.2 GWInfo:

Users Route Info	
Gateway Name	Gateway Code
test gateway	G09

[Back](#)

A.

- When admin wants to see the gateway, click on **GwInfo**, it will show above window.
- It contain users route Info i.e. Gateway Name and Gateway code.  
    **A.** Return to the User detail's window.

### 3.4 Country:

#### 3.4.1 Add Country:

Country Info	
Country Name	USA
Country Code	97
<input type="button" value="Submit"/>	

- To add country, select **Add** from **Country** menu.
- It will displays window as above.
  - A.** Enter the Country Name.
  - B.** Enter the Country Code.
  - C.** To submit all the details.
- All details should be Filled by the Admin.

### 3.4.2 Manage:

Country Details			
Country Name	Country Code	Modify	Delete
india	91	<a href="#">Modify</a>	<a href="#">Delete</a>
UAE	97	<a href="#">Modify</a>	<a href="#">Delete</a>

A. points to the [Modify](#) link for India.  
B. points to the [Delete](#) link for UAE.

- To view details of countries, select **Manage** from **Country** menu.
- It displays all the country details.
  - A.** Click on **Modify**, to update the country Details.
  - B.** Click on **Delete**, to delete the Country Details.

#### 3.4.2.1 Modify:

Country Info	
Country Name	<input type="text" value="india"/>
Country Code	<input type="text" value="91"/>
<input type="button" value="Submit"/>	

- To update the country details, admin can select **Modify**.
- It displays window as above.
- Then admin can adds changes to those particular details & again submit the details.

### 3.5 Operator:

#### 3.5.1 Add Operator:

Operator Info	
Operator Name	<input type="text" value="Hutch"/>
Country Name	<input type="text" value="india"/>
<input type="button" value="Submit"/>	

**A.** points to the Operator Name input field.  
**B.** points to the Country Name input field.  
**C.** points to the Submit button.

- To create operator, select **Add** menu from the **Operator** menu & then it will display window as above.
  - A.** Enter Operator Name.
  - B.** Enter Country Name.
  - C.** To submit the operator info.
- Admin can select multiple countries for a single Operator.
- But, country should not be same for another operator.
- Each country should have only one Operator.
- All details should be Filled by the Admin.

### 3.5.2 Manage:

Operator Details			
Operator Name	Country Name	Modify	Delete
Hutch	india	<a href="#">Modify</a>	<a href="#">Delete</a>
Hutch	UAE	<a href="#">Modify</a>	<a href="#">Delete</a>

- To view details of operator, select **Manage** from **Operator** menu.
- It displays window as above.
  - A.** Click on **Modify**, to update the operator Details.
  - B.** Click on **Delete**, to delete the operator Details.

#### 3.5.2.1 Modify:

Operator Info	
Operator Name	<input type="text" value="Hutch"/>
Country Name	<input type="text" value="india"/>
<input type="button" value="Submit"/>	

- To update the details, click on **Modify**.
- It displays window as above, whenever admin wants to update the details, he can change the details for any particular operator.

## 3.6 Route:

### 3.6.1 Add route:

Route Info	
Gateway URL	<input type="text" value="http://23.556.67.78/test.php"/>
Source Name	<input type="text" value="12345"/>
Gateway Code	<input type="text" value="G67"/>
Gateway Name	<input type="text" value="infotech"/>
User Name	<input type="text" value="jack"/>
Password	<input type="text" value="jack"/>
<input type="button" value="Submit"/>	

- When admin wants to create user, should have to create route first.
- To create route, select **Add** from **Route** menu.
- It displays window as above.
  - A.** Enter the URL of Gateway.
  - B.** Enter the Source Name, but source name should be Numeric only.
  - C.** Enter the Gateway Code.
  - D.** Enter the Gateway Name.
  - E.** Enter User Name.
  - F.** Enter Password.
  - G.** To submit the details of route.
- All details should be Filled by the Admin.

### 3.6.2 Manage:

Route Details							
Gateway	Gateway Name	Gateway Code	Source Name	User Name	Password	Modify	Delete
http://192.456.38.56/test.php	test gateway	G09	12345	infotest	testinfo	<a href="#">Modify</a>	<a href="#">Delete</a>
http://23.556.67.78/test.php	infotech	G67	12345	jack	jack	<a href="#">Modify</a>	<a href="#">Delete</a>

- To view details of routes, select **Manage** from the **Route** menu.
- It displays all the details of all the routes, which will be filled by admin in the add route window.
  - A.** Click on **Modify**, to update the operator Details.
  - B.** Click on **Delete**, to delete the operator Details.

#### 3.6.2.1 Modify:

Route Info	
Gateway URL	<input type="text" value="http://192.456.38.56/test.php"/>
Source Name	<input type="text" value="12345"/>
Gateway Code	<input type="text" value="G09"/>
Gateway Name	<input type="text" value="test gateway"/>
User Name	<input type="text" value="infotest"/>
Password	<input type="text" value="testinfo"/>
<input type="button" value="Submit"/>	

- When admin wants to update the details, he should have to click on **Modify**.
- Then it will show Route info window as above.
- Admin can change the details of a particular route & then submit.

### 3.7 Test Number:

#### 3.7.1 Add Test Number:

Test Number Info	
CountryName	UAE
Operator Name	Hutch
Route	infotech
Source Name	12345
Message	DESTINATIONTEST
Mobile No	9778564372
<input type="button" value="Submit"/>	

- Admin can test the delay time for a particular country, operator and mobile no. or for any route using test number window as above.
- Select **Add** from **Test Number** menu.
  - A. Select Country Name from the combo list.
  - B. Select operator Name from the combo list.
  - C. Select Route from the combo list.
  - D. It displays Source Name automatically.
  - E. It will send the same message for all tests i.e. 'DESTINATIONTEST'.
  - F. Enter the mobile number.
  - G. To submit the Test number info.
- All details should be Filled by the Admin.
- Admin can set timer for testing.
- Then messages will be sending continuously within that time which is set for the timer.
- And then it will show delay reports.

### 3.7.2 Manage:

TestNumber Details							
Operator Name	Country Name	Gateway Name	Message	MobileNo	Source Name	Modify	Delete
Hutch	UAE	infotech	DESTINATIONTEST	9778564372	12345	<a href="#">Modify</a>	<a href="#">Delete</a>
Hutch	india	test gateway	DESTINATIONTEST	919876346527	12345	<a href="#">Modify</a>	<a href="#">Delete</a>

- To view details about the Test Number, select **Manage** from the **Test no.** menu.
  - A.** Click on **Modify**, to update the test no. Details.
  - B.** Click on **Delete**, to delete the test no. Details.

#### 3.7.2.1 Modify:

Test Number Info	
CountryName	UAE
Operator Name	Hutch
Route	infotech
Source Name	12345
Message	DESTINATIONTEST
Mobile No	9778564372
	<input type="button" value="Submit"/>

- When admin wants to update the records, click on **Modify**.
- It will display window as above.
- Then admin can add changes to that details & then submit again

### 3.8 Reports:

#### 3.8.1 Latest report:

Batch	Gateway Code	Country Name	Operator Name	Message	Mobile No	Send Time(IST)	Recieve Time(IST)	Delay Time(HH:MM:SS)	Status
3433	G31	UAE	Etisalat	DESTINATIONTEST	971504363088	7/10/2008 5:26:25 PM			Pending
3433	g85	UAE	Du	DESTINATIONTEST	971558117604	7/10/2008 5:26:25 PM			Pending
3433	g85	UAE	Etisalat	DESTINATIONTEST	971504363088	7/10/2008 5:26:26 PM	7/10/2008 5:26:32 PM	0:0:6	Completed

- To view all the latest reports, select **Latest Report** from the **Report** menu.
- Then it will display Latest reports as above.
- It shows all the pending & completed messages along with send time, Receive time and also shows the delay time.

### 3.8.2 Country Wise:

**CountryWise DelayLog**

Country Name	UAE	▼			
	Date	<input checked="" type="checkbox"/>			
From	12	7	2008	▼	
To	12	7	2008	▼	
	All	<input checked="" type="radio"/>	Completed	<input type="radio"/>	Pending
		<input type="radio"/>		<input type="radio"/>	
				<input type="radio"/>	
<div style="background-color: #003366; color: white; padding: 5px 15px; display: inline-block; border: 1px solid #ccc;">View</div>					

- To view Country wise reports, select **country wise** from the **Report** menu.
- It displays window as above.
  - A.** select country from the combo list.
  - B.** check date option, to view reports date wise.
  - C.** selects **all** option, to view all reports.
  - D.** select **Completed**, to view completed messages only.
  - E.** select **Pending**, to view completed messages only.
- If date option will be uncheck, then it displays all the reports.
- To view reports click on **View** button and then it will display reports as follows:

### 3.8.2.1 Country wise report:

Batch	CountryWise Report							
	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
3434	Du	UAE	971558117604	g85	7/12/2008 5:29:40 PM			Pending
	Etisalat	UAE	971504363088	g85	7/12/2008 5:29:40 PM	7/12/2008 5:29:48 PM	0:0:8	Completed
	Etisalat	UAE	971504363088	G31	7/12/2008 5:29:39 PM			Pending
3433	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	g85	7/10/2008 5:26:26 PM	7/10/2008 5:26:32 PM	0:0:6	Completed
	Etisalat	UAE	971504363088	G31	7/10/2008 5:26:25 PM			Pending
	Du	UAE	971558117604	g85	7/10/2008 5:26:25 PM			Pending
3432	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	g85	7/10/2008 4:36:26 PM	7/10/2008 4:36:32 PM	0:0:6	Completed
	Etisalat	UAE	971504363088	G31	7/10/2008 4:36:25 PM	7/10/2008 4:50:42 PM	0:14:17	Completed
	Du	UAE	971558117604	g85	7/10/2008 4:36:25 PM			Pending

- Above page shows country wise report.
- It displays pending & completed messages along with send & receives time.
- So admin can find out, delay time for any message.

### 3.8.3 Country Operator Wise:

- To view Country operator wise reports, select **country operator wise** from the **Report** menu.
- It displays window as above.
  - A.** select country from the combo list.
  - B.** Select operator name from the combo list also.
  - C.** check date option, to view reports date wise.
  - D.** selects **All** option, to view all reports.
  - E.** select **Completed**, to view completed messages only.
  - F.** select **Pending**, to view completed messages only.
- If date option will be uncheck, then it displays all the reports.
- To view reports click on **View** button and then it will display reports as follows:

### 3.8.3.1 Country operator wise reports:

Batch	CountryOperatorWise Report							
	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
3434	Etisalat	UAE	971504363088	g85	7/12/2008 5:29:40 PM	7/12/2008 5:29:48 PM	0:0:8	Completed
	Etisalat	UAE	971504363088	G31	7/12/2008 5:29:39 PM			Pending
3433	Etisalat	UAE	971504363088	g85	7/10/2008 5:26:26 PM	7/10/2008 5:26:32 PM	0:0:6	Completed
	Etisalat	UAE	971504363088	G31	7/10/2008 5:26:25 PM			Pending
3432	Etisalat	UAE	971504363088	g85	7/10/2008 4:36:26 PM	7/10/2008 4:36:32 PM	0:0:6	Completed
	Etisalat	UAE	971504363088	G31	7/10/2008 4:36:25 PM	7/10/2008 4:50:42 PM	0:14:17	Completed

- Above page shows country operator wise report.
- It displays pending & completed messages along with send & receives time.
- So admin can find out, delay time for any message.

### 3.8.4 Country route wise:

The screenshot shows a web form titled "CountryRouteWise DelayLog". It contains the following elements:

- A.** Country Name dropdown menu, currently showing "UAE".
- B.** Gateway Code dropdown menu, currently showing "G31".
- C.** Date checkbox, currently unchecked.
- D.** From date selector (Month: 12, Day: 7, Year: 2008).
- E.** To date selector (Month: 12, Day: 7, Year: 2008).
- F.** Radio button options: "All" (selected), "Completed", and "Pending".
- View** button at the bottom.

- To view Country route wise reports, select **country route wise** from the **Report** menu.
- It displays window as above.
  - A.** select country from the combo list.
  - B.** Select Gateway code from the combo list also.
  - C.** check date option, to view reports date wise.
  - D.** selects **All** option, to view all reports.
  - E.** select **Completed**, to view completed messages only.
  - F.** select **Pending**, to view completed messages only.
- If date option will be unchecked, then it displays all the reports.
- To view reports click on **View** button and then it will display reports as follows:

### 3.8.4.1 Country route wise report:

Batch	CountryRouteWise Report							
3434	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	G31	7/12/2008 5:29:39 PM			Pending
3433	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	G31	7/10/2008 5:26:25 PM			Pending
3432	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	G31	7/10/2008 4:36:25 PM	7/10/2008 4:50:42 PM	0:14:17	Completed
3431	OperatorName	CountryName	MobileNo	G/WCode	SendTime(IST)	RecieveTime	Delay Time(HH:MM:SS)	Status
	Etisalat	UAE	971504363088	G31	7/10/2008 3:46:25 PM	7/10/2008 4:14:20 PM	0:27:55	Completed

- Above page shows country route wise report.
- It displays pending & completed messages along with send & receives time.
- So admin can find out, delay time for any message.

### 3.8.5 Country operator route Wise:

CountryOperatorRouteWise DelayLog			
Country Name	UAE		
Operator Name	Etisalat		
Gateway Code	G31		
Date <input type="checkbox"/>			
From	12	7	2008
To	12	7	2008
